JUNE 2006

A DISTRICT ADMINISTRATION SPONSORED SUPPLEMENT

Discover the flexibility of handheld wireless sensing.

This small, yet powerful and incredibly easy-to-use sensor system minimizes distraction and focuses attention on inquiry.

With the ImagiProbe software for Palm OS, the wireless PASPORT® AirLink SI and PASPORT sensors:

- ▶ Carry out regular experiments more conveniently;
- ▶ Keep your students out of danger when taking measurements;
- ▶ Conduct unique experiments not possible with wires;
- ▶ Efficiently collect different kinds of data using a single, MultiMeasure sensor module;
- ▶ Leverage your investment in other sensors through an optional analog adapter.

ImagiProbe® Wireless Sensing System
