ASSESSMENT

Personal Teaching Ed Tech Teacher-directed Electronic Learning

Education Technology Labs

www.edtechlabs.org

Teachers transmit assignments, tests, and teaching materials to a student's Palm. Students review the materials or view videos, complete the assignment or test, transmitting their work back to the teacher, wirelessly. Short answer and multiple choice items are returned scored; essay questions and term papers return as electronic documents for the teacher to read, score and add to the student's real time status. Ed Tech Labs allows teachers to share curriculum. Support is offered through Timpanogos Technologies. Information: contact 866-804-4636 or info@edtechlabs.org.

MATH & SCIENCE

**Shape Up: Geometry**

Leading Step, Inc.

www.leadingstep.com

Trapezoids, rhombuses, equilateral triangles! Learning geometry is fun as students identify various shapes and shape properties such as parallel lines, acute angles, and similar or congruent shapes. They get immediate feedback and can review definitions at any time. Student creativity is stretched as they have fun constructing their own geometric designs and master visualizing slides, flips, and rotations by applying these movements to solve geometric puzzles.

MATH & SCIENCE

**Size It Up**

Leading Step, Inc.

www.leadingstep.com

Size It Up is a fun, three-game package that helps students learn to work with various types of numbers including whole numbers, decimals, fractions, mixed numbers, and negative numbers. Also included are unique ways for students to practice their basic math tables - addition, subtraction, multiplication, and division - and solve algebraic type equations. Size It Up is the most recent in our line of applications that also include MathChamp!, SpellChamp!, and Shape Up: Geometry.
